

SK Siltron CSS Quality Policy

All employees are committed to delivering top-quality products and services.

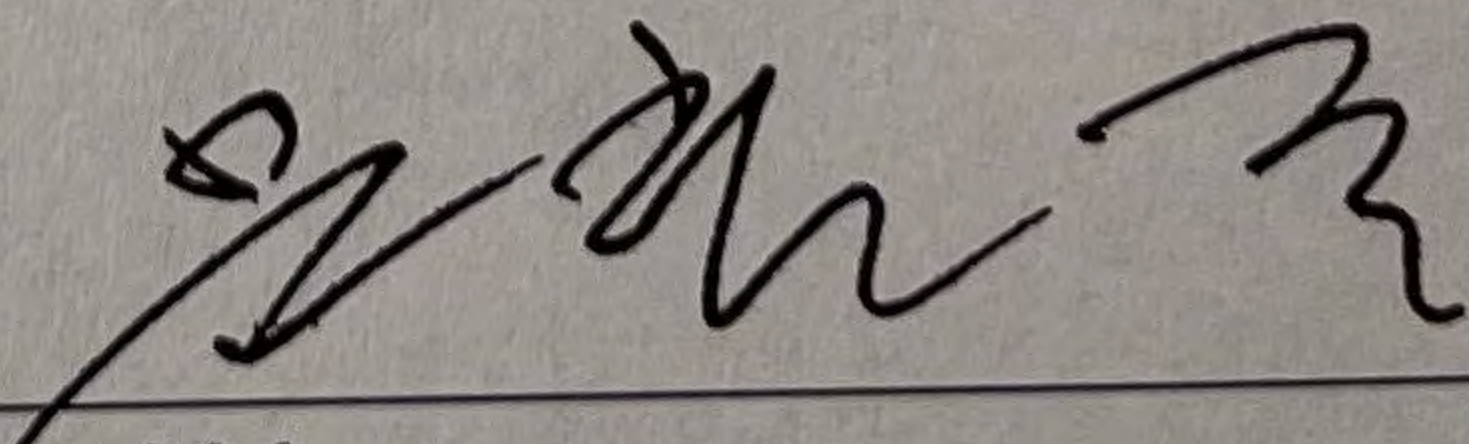

By committing to this policy, we are driven to exceed customer expectations, secure their trust, and continue to follow quality innovation activities:

- Adhere to the quality management system to ensure customer satisfaction and fulfill our social responsibilities regarding our products.
- Build trustful relationships with customers, and partnership companies, to achieve mutual growth.
- Create a learning organization that accumulates experience, knowledge, and technology into data.
- Enhance our technological capabilities to lead future technologies and achieve the highest quality standards.
- Systematic quality improvement activities to increase productivity and proactively prevent quality risks.

With this quality policy as our foundation, the company and all employees will make every effort to strengthen trust with our customers and supply the best products and services in a timely manner.
